DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Koch in view of Dygert, along with Lau, as set forth in the previous office action.

Allowable Subject Matter

Claims 9-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 11 and 43 are allowed.

Response to Arguments

Applicant's arguments filed June 18, 2004 have been fully considered but they are not persuasive. Applicant argues that Koch and Dygert can't be combined because Dygert teaches an ovate or egg shape. However, an elliptical shape is shaped similar to an egg. The device as taught by Dygert provides an elliptical shape. The elliptical shape is formed along the vertical axis of the device, wherein the elliptical shape in the present invention is along a horizontal axis. Applicant argues that Lau relates to a condom that has nothing to do with an anatomical device. However, Lau was used as a modifier to provide a teaching that a penis can be elliptical.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
